Message from the President

I have great pleasure in presenting this annual report which is according to the fiscal year and from now on the financial and activity report will be for the same reporting period.

My first six months as President have been exciting and above all rewarding as the experience of working for the benefit of Persons with Haemophilia with a dedicated and committed Board of Governors, Advisory Board, Executive Board, Staff and Volunteers has been a simply amazing experience and I am sure the coming year will be equally fulfilling for us all.

You will be pleased to know that all planned activities took place in time and were met with enthusiasm by the beneficiaries, much to the satisfaction of those who had worked so hard to achieve these targets. The enrollment of members, both People with Haemophilia and those who are committed to the cause of helping them, continues apace as the word about our humanitarian work spreads slowly and steadily throughout Pakistan, mainly due to the dedication of our volunteers and the coordination between the National Member Organization and the other Chapters of the Pakistan Haemophilia Patients Welfare Society.

Amongst the many challenges that the Society is facing the most difficult ones are updating the Society's Constitution to suit the present milieu and to raise enough funds to meet our objectives. However thanks to contributions, both in cash and kind, from donors, friends, relatives, colleagues we can continue with our mission and also reach out to many who are still unaware that treatment is available for them and their children.

I would also like to thank out international donors for all they have done to make a better world for Pakistani PWH and Inherited Bleeding Disorders. The World Federation of Haemophilia has supported Pakistan in various ways over many years and the most recent Humanitarian Aid Programme and Zero deformity Policy will certainly help reduce permanent disabilities in the next generation while Novo Nordisk Haemophilia Foundation has helped to raise awareness through seminars, camps and publications, In addition Save one Life continues to assist hemophilic children through their sponsorship program and in the near future we hope to take advantage of the Scholarship Programme for those young people who want to pursue professional careers.

May God bless all who are working towards a better tomorrow for Persons with Haemophilia.

Munawar Sher Khan

President, PHPWS Rwp/Isb Chapter

Message from Founding Member & Chairperson

Medical Advisory Board

My journey with the hemophilia community started in the early nineties with the realization of the pain and misery of these patients caused by the lack of diagnostic and treatment facilities in Pakistan. The initial focus was to bring these patients together, which resulted in the formation of the Rawalpindi /Islamabad Chapter of the Pakistan Haemophilia Patients Welfare Society (P.H.P.W.S. Rwp./Isbd. Chapter) in 1999. The next challenge was to ease their pain by providing accurate diagnosis and outpatient treatment facilities. This was done at the newly developed Haematology Clinic at the Armed Forces Institute of Pathology, Rawalpindi.

The obstacles have been many, from persistent difficulties with fundraising for the provision of very expensive factor concentrates to the public and the medical profession, misperceptions about the disease, and the under valuation of the need for the development of medical and humanitarian assistance. Thanks to the hard work and dedication of like-minded medical and technical professionals, volunteers, the PHPWS Rwp./Isbdchapter team, the patients and their families who participated in the working groups and other key initiatives, we have seen many notable successes. These include the development of the Haemophilia treatment Center (HTC) at the PHPWS Rwp./Isbd. Chapter, inpatient treatment facilities at haemophilia friendly hospitals, the comprehensive haemophilia center at the Pakistan Institute of Medical Sciences (PIMS) increasing public and medical professional awareness and reaching out to all those across the country with inherited bleeding disorders.

Over the years, what has shone through is the steadfast commitment to helping these patients to take charge of their lives and thrive.

As we move forward in 2016 and beyond, I am proud of what we have accomplished so far and excited about the future. Our haemophilia community is strong and vibrant, and together we will continue our efforts to eliminate the pain and misery of our patients, no matter where they live in the country.

Dr. Tahira Zafar

MB,DCP,FRCPPath

Consultant Haematologist

Director HTC ,Rawalpindi

Chair Person Medical Advisory Board

PHPWS Rwp/Isb. Chapter

Introduction

In Pakistan ,by statistical projection, there are 20,000 Persons With Haemophilia (PWH) and this number will steadily increase as the population increases exponentially and 90% will not be diagnosed due to lack of awareness and access to appropriate facilities for treatment and counseling. Even when treatment is available many cannot bear the heavy cost involved for regular care and only avail themselves of facilities when the need arises.

The Pakistan Haemophilia Patients Welfare Society Rawalpindi/Islamabad Chapter(PHPWS-Rwp/Isb) , founded in 1999, realized this and is striving to reach out to PWH where ever they may be, so that they can get the care required to lead a healthy and productive life. Starting as a small unit serving PWH in and around Rawalpindi and Islamabad, it now has over 800 patients from all over Pakistan and offers advisory, preventive, educational and subsidized medical assistance to them. On an average 70 to 80 patients are treated at the Society's HTC every month, however much more still remains to be done where outreach and provision of Factors is concerned.

Vision : To improve quality of life of people with Haemophilia and other inherited bleeding disorders

Mission : To empower patients to lead a healthy and productive life.

Aims: To ensure proper diagnosis, case management, and care by a multidisciplinary team of trained specialists

Objective

- To create awareness about haemophilia and other bleeding disorders
- To improve health care by Continued Medical Education (CME) of the caregivers
- To provide treatment facilities
- To link up with diagnostic centres and hospitals to facilitate accurate diagnosis and indoor management
- To raise funds to cover treatment costs

Activities 2015-2016

Workshop on ethical use of blood components organized by Dr. Lubna Zafar in collaboration with Fauji Foundation.

Daily routine at the Haemophilia Treatment Center, patients receiving relevant factors and treatments related to their requirement.

PHPWS was invited to partake and speak on "Guidelines for Surgery in Patients with Acquired Bleeding Disorders in Pakistan" at the concluding Ceremony of the International Surgical Conference hosted by the Society of Surgeons of Pakistan, Rwp.

A computer training was organized for some patients. After successful completion of this course, the patients received their participation certificates from PHPWS Managing Committee Members.

Elections for Executive Board Office bearers was held in December 2015. General body members consisting of registered persons with Haemophilia and volunteers came together to vote for the new Executive Committee.

Dr Tahira Zafar was invited to participate in an interactive Public awareness program on PTV. This helps the general public to understand the plight of these patients and leads on to integration of patients in civil society

Activities 2015-2016

To celebrate World Haemophilia Day 2016, RWP/ISB Chapter organized a series of activities including, Maalik, shown at Ciros Cinema courtesy of Mr. & Mrs. Manzir Shaikh for PWH.

PHPWS Team was invited to speak on PTV live television in regards to World Haemophilia Day.

Monthly meetings are held with Executive Board Members in which a monthly action plan is discussed and responsibilities assigned.

Two Seminars on Treatment, Literacy and Adherence Campaign sponsored by Novo Nordisc National Haemophilia Foundation (NNHF) were organized by PHPWS Rwp/Isb Chapter.

Continued Medical Education (CME) sessions were held with trainees from PIMS Hospital.

Leading up to the month of May Dr. Tahira and Dr. Munawar met with eminent colleagues and prominent community members and invited them to join the Board of Governors.

Physiotherapy

All patients with joint bleeds are referred post treatment to Physiotherapy Dept. at Pakistan Institute of Medical Sciences (PIMS), to improve joint health & prevent disabilities.

Dental Care

118 patients with dental bleeds were managed at the HTC. Complicated cases were referred to the dental unit at Children's Hospital and PIMS.

Seminars for Doctors

Key to Early Diagnosis & Appropriate & Timely Management

There is a dire need for doctors to know about the presentation & management of patients with inherited bleeding disorders. Five Educational seminars were arranged to provide the relevant knowledge.

Awareness and Education

Patient awareness programs: Taking control of their lives

Knowledge about haemophilia and what to do in case of emergencies makes the patient and their parents take control of the disease.

Partners in Patients Care

A network of hospitals and institutions in the twin cities provides facilities for diagnosis, indoor and specialized treatment. These include:

- Pakistan Institute of Medical Sciences
- Holy Family Hospital
- Benazir Bhutto Hospital
- Fauji Foundation Hospital
- Quaid e Azam International Hospital
- District Head Quarter Hospital
- Pakistan Atomic Energy Commission Hospital
- Armed Forces Institute of Pathology
- Armed Forces Institute of Transfusion
- Al-Shifa Trust Eye Hospital

Case Studies

Transforming care, saving lives!

Without treatment at the HTC, he would have had no hope of survival!

SAID NAWAB: 18 Year old resident of Gilgit , a case of severe haemophilia-A had multiple injuries due to motor bike accident and had to be transported by air to Rawalpindi. He was admitted at Pakistan Institute of Medical Sciences (PIMS) Islamabad and advised long acting F-VIII concentrates for 3 weeks, after which he showed mark improvement. With his stitches removed he was ready to travel back home.

Figure1: Initial Presentation

Figure1: Post Treatment

Happy ending for a complicated case

Zia-ud-Din, a 12 year old boy, resident of Azad Kashmir suffering from haemophilia-A. He was admitted at Pakistan Institute of Medical Sciences Islamabad (PIMS) with a history of loss of consciousness, vomiting & fits and was diagnosed as having an intracranial bleed with little hope of survival. . His parents came to the HTC completely devoid of hope about with the timely provision of Factor VIII concentrates he recovered fully after 3 weeks of treatment.

Treatment at the HTC saved his leg!

Habib-ur-Rahman, an 11year old patient with severe haemophilia A, suffered from trauma to left knee and a deep thigh wound following a road traffic accident . Extensive treatment with Factor VIII concentrates and regular wound care resulted in complete healing.

AUDIT REPORT

AUDITORS' REPORT TO THE TRUSTEES

We have audited the Annual Balance Sheet of "PAKISTAN HAEMOPHILIA PATIENTS WELFARE SOCIETY" (hereinafter referred to as "Trust") as at 30 June 2016 and the related Income & Expense Statement and Cash Flow Statement together with the Notes forming part thereof, for the year then ended (hereinafter referred to as "Financial Statements"). These Financial Statements are the responsibility of the Trustees of the Trust. Our responsibility is to express an opinion on these Financial Statements based on our audit.

We have conducted our audit in accordance with the International Standards on Auditing. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the Financial Statements are free of any material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the Financial Statements. An audit also includes assessing the accounting principles used and significant estimates made by the Trustees of the Trust as well as evaluating the overall presentation of the Financial Statements. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the Financial Statements give a true and fair view of the financial position of the Trust as at 30 June 2016 and of the results of its operations and its Cash Flows for the year then ended.

The financial statements of "PAKISTAN HAEMOPHILIA PATIENTS WELFARE SOCIETY" for the year ended 30 June 2015 were audited by a former auditor whose report dated 18 September 2015 reveals unqualified opinion thereon.

**PAKISTAN HOMOPHILIA PATIENTS WELFARE SOCIETY
NOTES TO THE ACCOUNTS
FOR THE YEAR ENDED 30TH JUNE, 2016**

1 LEGAL STATUS AND OPERATIONS

Pakistan Hemophilia Patients Welfare Society is provisionally registered under the voluntary social welfare agencies (registration and control) Ordinance, 196. The main objectives of the society is to provide health and care facilities to needy and poor hemophilic patients and carrying out other welfare projects/ schemes for the less privileged people. The registered office of the society is located at satellite town, behind Nadir Cinema, Commercial Market, Rawalpindi.

2 STATEMENT OF COMPLIANCE AND SIGNIFICANT ESTIMATES

2.1 STATEMENT OF COMPLIANCE

These financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of Accounting and Financial Reporting Standards for Small Sized Entities (SEEs) issued by the institute of Chartered Accountants of Pakistan.

2.2 SIGNIFICANT ESTIMATES

The preparation of financial statements in conformity with IASs/ IFRSs requires management to make judgements, estimates and assumptions that effects the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experiences and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgements about carrying values of assets and liabilities that are not readily approved from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised.

Significant areas requiring the use of management estimates in these financial statements relate to the useful life of depreciable assets and provision for doubtful receivables. However, assumptions and judgements made by management in the application of accounting policies that have significant effects on the financial statements are not expected to result in material adjustment t the carrying amounts of these assets and liabilities in the next year.

2.3 OPERATING COSTS

These include salaries and allowances and other emoluments of the staff recruited by the Society. The costs related to the Projects such as travelling and conveyance, labor and transportation charges, office supplies, utilities, communication and advertisement and promotion charges are directly charged against the grants /donations.

2.4 ACCOUNTING CONVENTION

These financial statements have been prepared under the historical cost convention.

3 BASIS OF PREPARATION

These financial statements have been prepared in the accrual basis of accounting.

4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

4.1 PROPERTY, PLANT AND EQUIPMENT

These are stated at cost less accumulated depreciation and impairment loss, if any. Depreciation is charged to income on written down valuemethod as specified in note 5 to the financial statements.

Depreciation is charged from the month asset is available for use while no depreciation is charged in the month in which the asset is disposed off.

Renewals and replacements are recognized in the carrying amount of thr property, plant and equipment if it is possible that future embodied economic benefits will flow to the Society. Other maintenance and repairs are charged to the receipts and expenditure account.

The carrying amounts of the society's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment loss, if any such indications exists, the recoverable amount of such assets is estimated and impairment losses are recognized in the receipts and expenditure account. Subsequent reversals in impairment losses, if any, are recognized in the receipts and expenditure account.

Fully depreciated assets are retained in the financial statements until their disposal or when no future economic benefits are expected from its use or disposal. No depreciation is charged after assets are depreciated to their residual values, which is rupee one.

4.2 PROVISIONS

Provisions are recognized in the balance sheet when the society has present legal or constructive obligation as a result of past events and it is probable that the outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made.

4.3 GRANTS AND DONATIONS

The main source of the Society's income is donations received in cash from general public including Zakat and Sadqa. Membership fee is recognized as income on actual receipt basis.

4.4 CASH AND CASH EQUIVALENTS

Cash and cash equivalents comprise cash in hand and at banks.
